

## Nature-based Art Instructor & Tour Intern

### Organizational Summary:

Located on a stunning urban oasis in Eagan, Minnesota, Caponi Art Park (CAP) is a distinctive nonprofit community space. CAP offers cultural and educational experiences in an inviting, natural setting. Our mission is to restore and nurture the human spirit through art, nature and community. Our tours and workshops use nature as a tool to teach art and art history to all ages. It is our goal for students to gain a new appreciation for art and nature as well as a better understanding of art terms and techniques.

### Internship Summary:

This 3-5 month internship is ideal for an individual aspiring to teach art, gain experience in nonprofits and for those who have a strong connection to nature. Interns will work throughout CAP's 60-acre living sculpture, conducting guided tours for visitors from age 4 to 94. Interns will work directly with Caponi Art Park staff to develop skills in using art and nature as a way to communicate and discover. As part of this internship, interns will also conduct outdoor nature-based art workshops in conjunction with most tours. The goal of CAP's tour and workshop programs is to have visitors walk away with a new appreciation for art and nature.

### Responsibilities:

- Conduct tours and adapt them to meet the specific needs of each tour group
- Instruct hands-on nature-based art workshops
- Monitor and maintain workshop supply inventory as needed
- Evaluate and adapt art workshops as needed
